

# HIGH SUPERABSORBENT CONTENT WEBS AND A METHOD OR MAKING THEM

## ABSTRACT

5

*sub all*

10

The present invention is directed to webs comprising fibers and superabsorbent materials in which the webs exhibit low susceptibility to migration of superabsorbent material within the web, even where the webs contain very high concentrations of superabsorbent materials. The invention is further directed to absorbent articles comprising such webs. The invention is further directed to methods for manufacturing such webs.
